

SUDHANSHU SHEKHAR

B.Tech Computer Science & Engineering (AI & ML) | LPU

Phone: +91 9939568800 • Email: suddhanshushekharkerai1234@gmail.com • Location: Jalandhar, Punjab
LinkedIn: linkedin.com/in/sudhanshu-shekhar-b43947255 • GitHub: github.com/sudhanshushekhar-05

EDUCATION

Lovely Professional University (LPU) — Jalandhar, Punjab

2025 – Present

B.Tech, Computer Science & Engineering (AI & ML) — NAAC A++ Grade

Gyandeeep Public School — Samastipur, Bihar

2022 – 2024

Senior Secondary (Class XII, Science) • Percentage: 76.00%

Gyandeeep Public School — Samastipur, Bihar

2021 – 2022

Secondary (Class X) • Percentage: 90.20%

PROJECTS

Smart Phone Monitoring & Detection System (ESP32 IoT) | Embedded C++, ESP32, Load Cell, IR, PIR

LPU ECE 279 Capstone

- Designed an intelligent embedded classroom compliance platform powered by ESP32 microcontroller.
- Integrated IR sensors for student counting, HX711 load cell weight sensor for phone detection, and PIR motion security.
- Configured real-time count mismatch alarm (buzzer & red LED) and 16x2 I2C LCD continuous status display.

AI Resume Analyzer – AI Career Assistant | Python, NLP, Flask, React

Aug 2026 – Present

- Built an AI career assistant parsing resumes to evaluate ATS compatibility, compute role-fit %, and highlight skill gaps.
- Generated automated career recommendations suggesting relevant job roles, target companies, and salary benchmarks.

Personal Portfolio Website | HTML5, CSS3, JavaScript

Aug 2026 – Present

- Developed a responsive developer portfolio website featuring glassmorphism design, ambient canvas background, and interactive project modal dialogs.

Study Website (Class 9 & 10 Platform) | HTML, CSS, JavaScript

Jun 2026 – Jul 2026

- Built a centralized web portal providing study notes, video tutorials, interactive quizzes, and revision planning tools.

Snake Game – GUI Python Application | Python, Graphics, Event Handling

Nov 2025 – Dec 2025

- Created a desktop GUI Snake game with real-time collision detection, body segment growth physics, and score persistence.

TECHNICAL SKILLS

Languages: Python, JavaScript, C, C++

Web & DB: HTML5, CSS3, PostgreSQL, SQL

IoT & Hardware: ESP32 Microcontroller, HX711 Load Cell, IR Sensors, PIR Sensors, 16x2 LCD

Tools & Concepts: Git, GitHub, VS Code, OOPS Basics, Problem Solving

Soft Skills: Communication, Teamwork, Analytical Thinking, Time Management

CERTIFICATIONS & COMMUNITY LEADERSHIP

- Cyber Security Awareness Lead (LPU x WNS Cares Foundation):** Taught digital safety & anti-phishing to 30 participants, successfully issuing digital certificates.
- Python Skills up — GeeksforGeeks (Nov 2025):** Certified in Python programming fundamentals and data structures.
- Leadership and Teams — Saylor Academy (Nov 2025):** Certified in team dynamics and peer collaboration.
